

HittableObject

```
classDiagram
    class HittableObject
    class Model
    Model --|> HittableObject
```

A UML class diagram illustrating inheritance. At the top is a rectangular box labeled "HittableObject". Below it is another rectangular box labeled "Model". A vertical arrow points from the top of the "Model" box to the bottom of the "HittableObject" box, indicating that "Model" inherits from "HittableObject".
